**Eurasian Griffons**

January 2022

Open your books, page C5 and C6, and look at the pictures. Where do you think this bird lives and what problems do you think it faces (loss of habitat, hunting/poaching, tourism activities, pollution, not enough food...)?

Now, read the text and find out. Write the words in your dictionaries and do the exercises 2 and 3, page C6. Make notes under the headings in your notebooks. Then write a summary of the text.

## **Wildlife in our country**

This theme is for those who would like to learn more, so here is a task for you:

Search the Internet and find some information about wildlife in our country (the most common wild animals, endangered species,...). You can also choose one wild/endangered animal and write about it like it is written about Eurasian griffons in your books. Let your imagination write this story. Please, use a sheet of paper for that. Those who decide to do this will present it to the class when we get back to the classroom. It will be evaluated, too. So, do your best!

## **Revision**

For the last lesson of this week let's revise Modules 1-3. This would be a great preparation for getting back to our classroom.
